**MODEL TM-40-DC-FC**

Ergonomic Solutions / Tilt Master & Tilt Master Straddle

## PRODUCT OVERVIEW

The tilt master lifts and positions filled tote boxes or baskets without the need of a fork truck or lift table using the newly designed heavy-duty tilt master. The tilter will function as transporters by moving completed products from work station to work station without waiting for a fork truck. This lift has a thin profile to allow the user to get as close to the load as possible. It also has a standard floor lock and rolls easily on the phenolic steering wheels. Lift is designed to be used with open bottom pallets or skids. The unit is powered by a DC electric motor that includes an on-board battery charger, battery charge indicator gauge and foot control.

## KEY FEATURES

- Folding ergonomic handle
- Two rigid and two swivel casters provide smooth and efficient mobility
- 90 Degrees tilt angle allows for better ergonomic access
